

# Example Storm Analysis

01 March 2025 - 01 April 2025

Daily date markers

	Rainfall	Wind Gust	Air Pressure
Minimum:	0.00 mm	0.00 mph	1000.30 mbar
Maximum:	23.60 mm	15.00 mph	1038.20 mbar
Average:	0.19 mm	1.62 mph	1019.00 mbar

Low air pressure is often linked to more turbulent weather, while higher air pressure tends to be associated with calmer, more stable weather.

# Example Humidity & Rainfall

01 March 2025 - 01 April 2025

Daily date markers

	Rainfall	Humidity
Minimum:	0.00 mm	39.00 %
Maximum:	23.60 mm	98.00 %
Average:	0.19 mm	78.15 %

Humidity is a measure of moisture in the air. 100% means fully saturated and cannot hold any more.

# Example Wind Speed & Gusts

01 March 2025 - 01 April 2025

Daily date markers

	Wind speed	Gust of wind
Minimum:	0.00 mph	0.00 mph
Maximum:	7.60 mph	15.00 mph
Average:	1.91 mph	1.62 mph

"Wind Speed" is the average wind speed measured over short intervals while "Wind Gust" is the biggest gust of wind during each interval.

# Example Solar Radiation & UV Index

01 March 2025 - 01 April 2025

Daily date markers

	UV Index	Solar radiation
Minimum:	0.00	0.00 W/m <sup>2</sup>
Maximum:	6.10	791.20 W/m <sup>2</sup>
Average:	0.59	94.81 W/m <sup>2</sup>

Solar radiation is the electromagnetic radiation power received from the Sun measured in watts per square meter.

UV Index is a measure of ultraviolet radiation intensity from the Sun, indicating potential risk for skin damage.

Potential Risk: 0-2: Low   3-5: Moderate   6-7: High   8-10: Very High   11+: Extreme

# Example Air Temperature

01 March 2025 - 01 April 2025

Temperatures shown are "ambient" (the temperature of the free flowing air protected from direct sunlight).

Your logo here

# Example Air Pressure

01 March 2025 - 01 April 2025

Air pressure shown is "relative" (adjusted to sea level) allowing for comparison between stations at different elevations.

# Example Daily Rainfall

01 March 2025 - 01 April 2025

Daily date markers

'Driest Period' identifies the longest period without rainfall.

Your logo here

# Example Air Humidity

01 March 2025 - 01 April 2025

Humidity is a measure of moisture in the air. 100% means fully saturated and cannot hold any more.
